

## DataAnywhere! DataEverywhere!

**DataAnywhere!** and **DataEverywhere!** are data connection subscriptions that help school districts manage data between multiple sources and on multiple software platforms, streamlining the data management process and saving time and money. **DataAnywhere!** and **DataEverywhere!** also provide efficient and flexible reporting capabilities and an integrated approach to importing and exporting data, making it easier to store, track, document and share information.

And, as part of the full suite of Project Education software solutions, **DataAnywhere!** and **DataEverywhere!** can link with all data within our platform to create reports efficiently and accurately to be shared with third-party data applications.

### **DataAnywhere! Import Subscription Service**

**DataAnywhere!** provides a central location for assessments and online curriculum. This is critical to maintain the integrity of the data and enables educators to more efficiently and more accurately populate forms, reports and dashboards by pulling data from other sources into the **DataAnywhere!** platform. **DataAnywhere!** can then sync with other Project Education solutions, creating a full-circle, full-service platform for retrieving and using data.

#### ***DataAnywhere! works seamlessly with:***

- Imagine Math
- Skyward
- Eduphoria

### **DataEverywhere! Export Subscription Service**

**DataEverywhere!** shares data stored in Project Education with other educators as needed by the school district. The solution is flexible and can be customized to partner with whatever systems the district or situation requires. One important benefit of **DataEverywhere!** is its ability to track Medicaid data and services, and then customize Medicaid reports to fit its specifications.

#### ***DataEverywhere! works seamlessly with:***

- Esped
- Test Hound
- Medicaid

#### **Cost of **DataAnywhere!** **DataEverywhere!** subscriptions includes:**

- Customized development of importers and exporters
- Ongoing program updates to display the most current data available
- Self-service features including ... (need info)
- System maintenance as needed

Whether importing or exporting data, there's never a cost for sharing data with other systems.

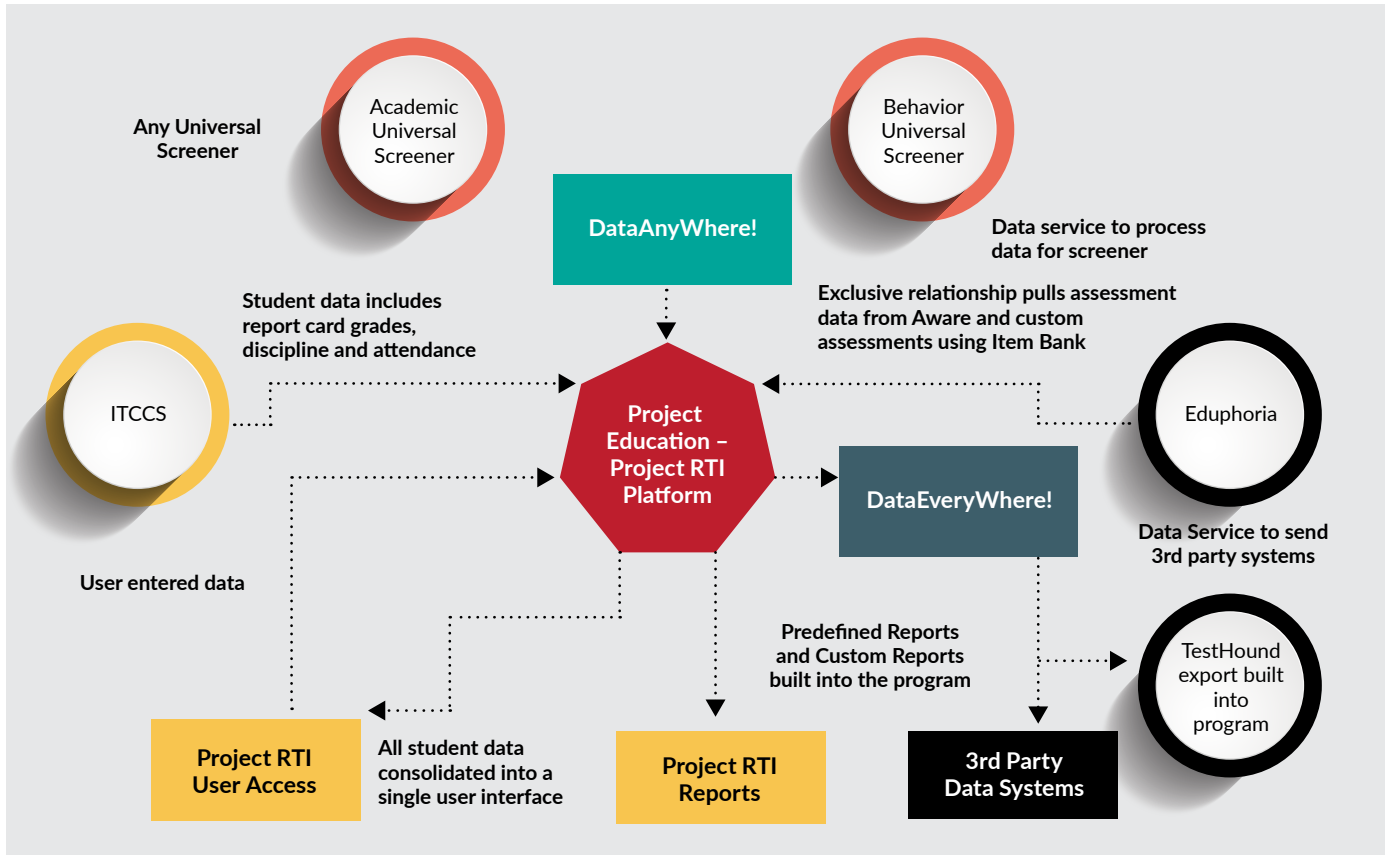

**PROJECT**  
**EDUCATION**

## The Single Source Data Solution

DataAnywhere! and DataEverywhere! are part of the comprehensive Project Education solution, which works seamlessly with third party data systems including Test Hound, Eduphoria and IT CCS, as well as academic and behavior specialists, to track and monitor progress for students, and share data with school district partners and third-party vendors.

# PROJECT EDUCATION

### About Project Education

Project Education is the leading provider of comprehensive educational software solutions to help school districts manage and track student data. But Project Education goes beyond software: we offer customizable solutions through a full family of products that are easily integrated with existing systems and processes, or can be effective as stand-alone tools. And all of this is backed up with superior client service, training and ongoing support provided by a team of experts from various educational and technology backgrounds.
