PROJECT GT

GT made EASY.

Customizable web-based program for the entire Gifted and Talented process. From the initial identification and placement to tracking opportunities beyond the curriculum. Project GT provides campuses with reporting to show compliance data and scheduling opportunities. Students' electronic folders house work samples, history, and formal documentation needed for a district wide program. Districts praise the auto-generated parent letters in the parents' home language! Experience a user-friendly student achievement focused program that includes a detailed compliance reporting system for recording evidence of fidelity to your district's goal of supporting students.

✐ Project GT Features

- **Parent communication:** Letters are automatically generated from decisions submitted and can print in the home language when appropriate.
- **Integration:** District assessments, grades, schedules, attendance, and discipline can easily be imported into Project GT for a one stop place to measure and grow your GT program.
- **Progress monitoring:** Optional time logs and progress reporting forms automatically pull in students' grades and assessments.
- **At-a-Glance Dashboards:** Each user can customize their dashboard giving them graphs for quick access to GT participation by grade level, campus, or district.
- **Reporting:** The robust reporting features help guide district planning by providing information on everything from services qualified for versus services offered, to GT student rosters, DNQs, and inclusion logs for push-in/pull-out programs.
- **Custom forms:** In addition to our built-in forms, we specialize in taking district forms and incorporating them into the Project GT program for familiarity and ease of training.
- **Security:** In addition to the unlimited free security roles and the backing of Microsoft services, each district's information is "siloed" to provide the ultimate in secure student data and communication.
